GENERAL PROVISIONS

2. The Net Proceeds shall be distributed in accordance with the rules established by this Distribution Protocol according to a claims-made process to compensate Class Members in the Canadian FX National Class Action.

3. The Claims Administrator will consider any compensation received by Class Members in other jurisdictions, including the U.S. Proceeding or private settlements, in respect of FX Trades.

ALLOCATION OF NET PROCEEDS

4. The Net Proceeds shall be allocated to the following Funds:

Direct Claims Fund	80%
Indirect Claims Fund	20%

5. Class Members will be entitled to advance claims in the following claims categories:

- (a) Direct Claims; and
- (b) Indirect Claims.

6. Class Members may advance separate claims in respect of more than one claims category, provided those claims are in compliance with the rules applicable to each claims category. Class Members cannot advance a claim for the same FX Trades in different Funds. The claims process will be designed to assist Class Members to easily and efficiently advance their claims in all applicable claims categories.

7. Compensation payable for all valid claims received will be calculated by the Claims Administrator based on the rules for the applicable claims category and the Net Proceeds available in the applicable Fund.

8. The distribution in Quebec will be subject to the application of the *Regulation respecting the percentage withheld by the Fonds d'aide aux actions collectives*, C.Q.L.R. c. R-2.1, r. 2.

9. If there are more monies allocated to any Fund than is required to pay the maximum compensation to Class Members for all valid claims made against that Fund on the terms set out below, Class Counsel may apply such excess to proportionately increase the other Funds.

DIRECT CLAIMS FUND AND DIRECT CLAIMANTS

10. Direct Claims will be advanced by Class Members against the Direct Claims Fund.

11. A Direct Claimant will document their eligible transaction volume using their own records and will submit those records to the Claims Administrator.

12. The Claims Administration will undertake the following steps to value a claim, with assistance from the Consulting Expert as necessary:

- (a) **Step #1:** Analyze transaction volume based on the records submitted by the Claimant and, if necessary, convert values into CAD, using prevailing exchanges rates during the relevant time period applicable for the submitted records;
- (b) **Step #2:** If any volumes submitted are rejected, send a deficiency notice and provide an opportunity to cure;
- (c) **Step #3:** Adjust the transaction volume to yield the Claimant's Settlement Transaction Volume;

- (d) **Step #4:** Adjust the Settlement Transaction Volume to yield the Eligible Participation Amount; and,
- (e) **Step #5:** Determine the damages calculation and the payment to the Claimant, having regard to any compensation received in other jurisdictions, including the U.S. Proceeding or private settlements.

Conversion Ratios

13. The conduct of the defendants at issue in the class action was aimed at affecting the FX spot price. Therefore, the impact on the various FX Instruments will be adjusted based on the exposure to spot prices.

14. The following Conversion Ratios will be will be applied to FX Instruments:

Instrument	Conversion Ratio
FX Spot Transactions	1.0
FX Forwards	1.0
FX Swaps	1.0 for FX forward risk component
OTC FX Options	0.2
FX Futures	1.0
Options on FX Futures	0.2

Relative Damage Factors: Liquidity and Trade Size

15. Adjustments for transaction characteristics are called “**Relative Damage Factors**” and include currency pair traded and trade size. The Claimant’s Settlement Transaction Volume, as adjusted by the Relative Damage Factors, results in the Claimant’s Eligible Participation Amount.

Liquidity: Currency Pair Traded

16. This Relative Damage Factor recognizes the effect of the liquidity of a currency pair on damage. All else being equal, trades in currency pairs with higher liquidity are likely damaged less per unit of Settlement Transaction Volume than trades in currency pairs with lower liquidity.

17. The following table of currency pairs were measured and grouped based on similar liquidity profiles:

Most Liquid	USDCAD, USDEUR, USDGBP, USDJPY, USDMXN, USDAUD, CADEUR, CADGBP, USDCHF, USDBRL

Trade Size

18. This Relative Damage Factor recognizes the effect of trade size on damage.

Relative Damage Factor Table

19. Claimant's Settlement Transaction Volume will be adjusted to account for the Relative Damage Factors as follows:

Settlement Transaction Volume	Most Liquid	Liquid	Illiquid	Pegged
Less than and not including \$1,000,000	0.53	1.47	3.13	0.09
\$1,000,000-\$19,999,999	1.00	2.91	6.24	0.31
\$20,000,000-\$99,999,999	3.51	7.87	13.5	0.74
\$100,000,000 and above	4.82	13.2	22.7	1.52

Discounts

20. Trades between January 1, 2003 and November 30, 2007 will be discounted by 40% ("**Time Period Discount**").

Formulas

21. Eligible Participation Amounts will be calculated on a trade-by-trade basis using the following formulas by instrument. In the formulas below, "**EPA**" means Eligible Participation Amount and "**STV**" means Settlement Transaction Volume. The formulas are as follows:

$$\text{Spot and Forward EPA} = \text{STV} \times \text{Relative Damage Factor} \times \text{Time Period Discount (if applicable)}$$

Where STV = notional x 1.0 Conversion Ratio

Futures EPA = STV x Relative Damage Factor x Time Period Discount (if applicable)

Where STV = notional x 1.0 Conversion Ratio

Swap EPA = STV x Relative Damage Factor x Time Period Discount (if applicable)

Where STV = **EITHER** mismatch swap proportion x 1.0 Conversion Ratio
OR notional x 0.001 Conversion Ratio

OTC Option EPA = STV x Relative Damage Factor x Time Period Discount (if applicable)

Where STV = notional x 0.2 Conversion Ratio

Option on Futures EPA = STV x Relative Damage Factor x Time Period Discount (if applicable)

Where STV = notional x 0.2 Conversion Ratio

Payments

22. Subject to paragraph 23, the Direct Claimants will share the Direct Claimants Fund *pro rata*.

23. No payment will be made if the compensation calculated for a valid Direct Claim is less than \$20. Any amounts remaining in the Direct Claims Fund as a result of this provision will be reallocated *pro rata* across the other valid Direct Claims.

24. In the event there are multiple rounds of distribution, the *pro rata* share payments will be reduced by the hold back amount.

25. If there are more monies allocated to the Direct Claimants Fund than are required to make payment of compensation to all valid Direct Claims made against it,

Class Counsel may implement a *pro rata* increase in the compensation payment to Direct Claimants. If a *pro rata* increase is determined to be inappropriate, Class Counsel will prepare a proposal in respect of any excess money and will move to the Courts for approval of it prior to the distribution of the Direct Claimant Fund. In preparing a proposal in respect of how to distribute any excess monies, Class Counsel will consider all relevant factors, including the utility and efficacy of a *cy près* distribution, if appropriate.

INDIRECT CLAIMS FUND AND INDIRECT CLAIMS

26. Indirect Claims will be advanced by Class Members against the Indirect Claims Fund.

27. An Indirect Claimant will document their holdings of Investment Vehicles available in Canada that entered into FX Instruments using their own records and will submit those records to the Claims Administrator electronically. The Claims Administrator has discretion to determine what documentation is sufficient for the purposes of establishing an Indirect Claimant's holdings of Investment Vehicles. Such acceptable supporting documents may include, but are not limited to, the following: account statements, print outs of online account balances, trade confirmation reports, and any other document that shows the value of an Investment Vehicle.

28. The Claims Administrator will determine if the Indirect Claimant's holdings are included on a list of Investment Vehicles available in Canada that entered into FX Instruments. Such list of Investment Vehicles will be posted online by the Claims Administrator. If the investment is not on the list, then the Claims Administrator will notify Class Counsel who will confirm the claims should be denied for that reason, or whether the investment should be added to the list.

Payments

29. The Indirect Claimants will receive a payment based on the cumulative value of their investments over the class period as provided in the chart below:

Cumulative Investment	Payment
Less than \$100,000	\$20
Over \$100,000 but less than \$1,000,000	\$50
Over \$1,000,000	\$50 plus \$1 per \$10,000 in excess of the first \$1,000,000

30. If there are more funds allocated to the Indirect Claim Fund than are required to make payment of compensation for all valid Indirect Claims made against it, Class Counsel may implement an increase in the compensation payable for Indirect Claims. If an increase is determined to be inappropriate, Class Counsel will prepare a proposal in respect of any excess money and will move to the Courts for approval of it prior to the distribution of the Indirect Claim Fund. In preparing a proposal in respect of how to distribute any excess monies, Class Counsel will consider all relevant factors, including the utility and efficacy of a *cy prè*s distribution, if appropriate.

RESIDUAL DISCRETION FOR THE MANAGEMENT OF THE DISTRIBUTION PROTOCOL

31. Notwithstanding the foregoing, if, during the claims process or following the claims process and the calculation of compensation in accordance with this Distribution Protocol, Class Counsel have concerns that the claims process and/or Distribution Protocol is producing an unjust result on the whole or to any segment of the Class Members or that a modification is required or recommended, they shall move to the Courts for approval of a reasonable modification to this Distribution Protocol or for further directions with respect to the distribution of the Net Proceeds.

32. In arriving at a determination that an unjust result is occurring or that a modification is required or recommended, Class Counsel shall seek a consensus among themselves, failing which they may move to the Courts for a determination of any such issue.

RESIDUAL DISTRIBUTION

33. If there remains any amounts in any of the Funds after the distribution has been made to all valid claims in accordance with the provisions of this Distribution Protocol (as modified, if applicable), Class Counsel will make an application to the Courts to determine how such funds shall be distributed. In preparing a proposal in respect of how to distribute any excess monies, Class Counsel will consider all relevant factors, including the utility and efficacy of a *cy près* distribution, if appropriate.

ADMINISTRATION

34. The administration of this Distribution Protocol and the claims process will be governed by the Administration Protocol.
